"NB-14 measurement data display app*" installation

＊：This app is only compatible with Android.

We have now released the Noise Dosimeter, NB-14.
This dedicated smartphone app is scheduled to be released on Google Play Store, but for now, please install it from the RION webpage (Support Room).

Please scan the QR code on the main body of NB-14 or read the following QR code with your smartphone to access the website, and tap "NB-14 measurement data display app installation page".

Please be sure to read the "Notes" and "Installation Instructions" on the page before proceeding with the installation.

By accessing the "Installation Procedure" from the link below, you can smoothly install it on your smartphone while checking the procedure on your PC screen.
install_en.pdf (rion.co.jp)
