

Data Management Software for Environmental Measurement AS-60 and Waveform analysis software AS-70 are offered free of charge for a limited time.

May 27, 2020

We would like to express our deepest sympathies to those who are suffering from the spread of the new coronavirus.

With the spread of the COVID-19, many people are forced to work from home as a measure to prevent the spread of infection. Under these circumstances, RION has started to provide software (Data Management Software for Environmental Measurement AS-60 and Waveform analysis software AS-70) for managing and analyzing measurement data of sound level meters and vibration meters for a limited period of time, available as free downloadable versions. With this free download, you can use this free download version without using the HASP key, and all the features (including options) that were previously only available to the customer who purchased the software can be used by anyone.

The information about our products and the software is as follows.

◆Products
